

21 CFR Part 11 Compliant Training Management System

Designed specifically for the life sciences industry, the eTraininfo Training Management System automates your training processes for improved compliance and productivity. eTraininfo is fully compliant with 21 CFR Part 11 requirements and hence can be used for paperless tracking and management of training records. The system is fully configurable and can be implemented quickly and easily. An available validation package accelerates system validation and deployment.

eTraininfo is brought to you by CIMCON Software, a trusted leader in providing 21 CFR Part 11 compliant solutions to FDA-regulated industries. CIMCON's compliance software and services have been implemented by over 500 companies in North America, Europe and Asia to improve business operations and compliance. CIMCON compliance solutions have been adopted as a corporate standard and implemented globally by many of the world's largest FDA-regulated companies.

Enterprise Training Management

eTraininfo Validation Package: A comprehensive and detailed validation package written by validation experts is available for quick and easy implementation.

21 CFR Part 11 Compliance: Allows paperless training processes and operations.

Validation Services

CIMCON Software can provide you with validation services that include risk assessment, SOP preparation, protocol execution, and training.
