

The eInfotree Quality Management Platform is a comprehensive, end-to-end modular quality suite that manages all your organizational data regardless of format (including documents, forms, lab data, spreadsheets & drawings) as well as quality processes (including reviews/approvals, CAPA, Audits, & Training). A single interconnected system improves information flows and accelerates compliance, productivity and efficiency. Highly flexible to map to your existing processes, eInfotree is a simple and easy to use system with full validation support for fast implementation and rollout.

**Benefits:**

- Single system for all quality data – documents, forms, lab data, spreadsheets and drawings
- Automate a wide range of quality processes – review and approvals, CAPA, Audits and Training
- Start with what you need and expand as your needs grow
- Lower costs due to a single, centralized system
- Simple and easy to use
- Role-based access for security and access controls
- Design your own workflows to map to existing processes
- Validation package and services reduce validation costs
