

DATA INTEGRITY FOR LAB/INSTRUMENT FILES

Secure Your
Lab/Instrument Files

Developed specifically for and in close collaboration with the life sciences industry, LabMonitor automatically secures your lab/instrument files by continuous monitoring of lab folders. The system also provides version control of these files, access level controls, and full 21 CFR Part 11 compliance, with an audit trail of all changes.

Benefits:

- Automatically Secure your Lab/Instrument Files via Continuous Monitoring
- Version Control
- 21 CFR Part 11 Compliance

Lab/Instrument File Management Features

Continuous Monitoring

Monitor network folders for instantaneous file tracking.

Secure Storage

Organize files, documents and other content in a central repository.

Version Control

Manage multiple versions with a single version of the truth. Compare versions with one click.

Workflow Designer

Create your own workflows in minutes. Setup email alerts on task completion.

Data Management

Configure tables with columns, field types, valid ranges and picklists.

Collaboration

Capture knowledge with Notes, Discussions and Logs. Link related documents.

Search

Search file text, attributes, content, notes and more.

Part 11 Compliance

Security, audit trails and electronic signatures.

Modules:

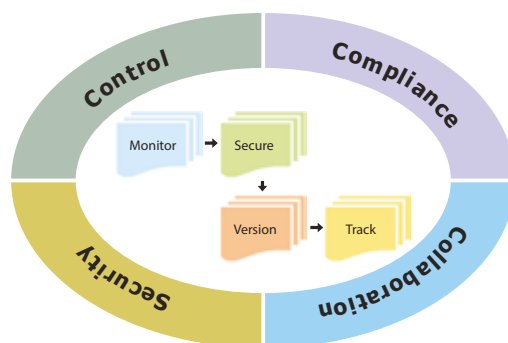

Workflow Designer: Design your own workflows.

Spreadsheet Module: Part 11 Compliance for spreadsheets

Training Module: Train Employees on stored content.

File Viewer: Preview, Redline, and Compare files in browser.

PDF Publishing: Publish to PDF upon document approval.
