

DATA INTEGRITY FOR YOUR LAB/INSTRUMENTS

LabMonitor

Secure Your Lab/Instrument Software & Data

LabMonitor makes legacy software applications compliant by enforcing logins and automatically secures lab / instrument data with continuous monitoring & version control. With centralized control & 21 CFR 11 compliance of all your lab instruments, the system allows for enterprise search, reporting and signoffs using 21 CFR 11 compliant e-signatures & configurable workflows.

Benefits:

- Enforce logins & compliance for legacy software
- Automatically Secure Lab/Instrument Data via Continuous Monitoring
- Centralized control
- GxP & 21 CFR 11 Compliance

LabMonitor Features

Enforce Login

For legacy lab applications – the foundation of compliance.

Continuous Monitoring

Automatically version and backup lab data to database and associate with source instrument.

Access Controls

Role based access control to instruments, data, processes & reports.

Centralized Controls

Manage and view all instruments & associated data through a single console.

Workflow Designer

Create and trigger workflows to review/approve lab data and reports with e-signatures.

Data Management

Organize, retrieve, compare, report on & archive data easily.

Enterprise Search

Search across all instruments/data with the click of a button.

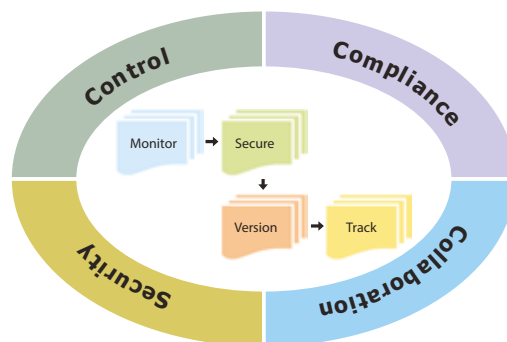

GxP & 21 CFR 11 Compliance

Security, audit trails & electronic signatures.

Value-Add Modules:

- Workflow Designer
- TransForm
- QMS
- CAPA
- Audit
- Training
