

# DIGITAL TRANSFORMATION OF YOUR FORMS

## TransForm

Digitize Your  
Paper Based Forms

CIMCON's TransForm software automatically transforms existing paper-based forms into an electronic, web-based form that is fully 21 CFR Part 11 compliant. With form version control and role-based access down to the field level, data entries can be validated and the form signed off electronically. Entered data is automatically organized and can be easily retrieved, analyzed and reported on.

### Benefits:

- Highly efficient
- Instant organization & retrieval
- Electronic Signatures
- Workflows
- GxP & 21 CFR 11 Compliant

## TransForm Features

### Import/Design Forms

Import forms directly into TransForm, or create new ones using Form Designer.

### Input Validation

With field types, pick lists & valid ranges. Control access to form templates, form data & fields.

### Manage Versions

Store and rollback form versions. Retrieve records associated with each version. Use current version until new version is approved in TransForm.

### Data Management

Organize, retrieve, report on, analyze, integrate & archive data easily.

### Workflow Designer

Design workflows for form completion with email alerts. Track status with workflow reports.

### Electronic Signatures

Signoff on forms using 21 CFR 11 compliant e-signatures.

### Enterprise Search

Across all form data, supporting documents & repository with the click of a button.

### GxP & 21 CFR 11 Compliant

Security, audit trails and electronic signatures.

### Value-Add Modules

- Form Designer
- Workflow Designer
- LabMonitor
- QMS
- CAPA
- Audit
- Training
